Forensic Science International, 33 (1987) 299—303
Elsevier Scientific Publishers Ireland Ltd.

SUBJECT INDEX

Volume 33 (1987)

Accident
motorcycle, fatality, alcohol, blood alcohol concentration, 165
Actin, group-specific component
subtyping, isoelectric focusing, ultrathin-layer polyacrylamide gel isoelectric focusing, urea extraction, bloodstains, whites, blacks, 187
Agarose gel electrophoresis
glutamate-pyruvic transaminase, esterase D, 69
Alcohol intoxication
alcoholism, alcohol-related mortality, causes of death, death certificates, liver cirrhosis, cardiomyopathy, pancreatitis, autopsies, forensic medicine, male alcoholics, 231
Alcoholism
alcohol-related mortality, causes of death, death certificates, liver cirrhosis, cardiomyopathy, pancreatitis, alcohol intoxication, autopsies, forensic medicine, male alcoholics, 231
Alcohol
motorcycle, accident, fatality, blood alcohol concentration, 165
Alcohol-related mortality
alcoholism, causes of death, death certificates, liver cirrhosis, cardiomyopathy, pancreatitis, alcohol intoxication, autopsies, forensic science medicine, male alcoholics, 231
Amitriptyline
tricyclic antidepressant poisonings, nortriptyline, desipramine, tissue distribution, analytical toxicology, high pressure liquid chromatography, 93
Analytical toxicology
tricyclic antidepressant poisonings, amitriptyline, nortriptyline, desipramine, tissue distribution, high pressure liquid chromatography, 93
Autopsies
alcoholism, alcohol-related mortality, causes of death, death certificates, liver cirrhosis, cardiomyopathy, pancreatitis, alcohol intoxication, forensic medicine, male alcoholics, 231

Bacteriological techniques
latent fingerprint development, 209
Biological materials
cephradine, Sep-Pak C_{18} cartridge, high performance liquid chromatography, thin-layer chromatography, mass spectrometry, 267
Blacks
group-specific component, subtyping, isoelectric focusing, ultrathin-layer polyacrylamide gel isoelectric focusing, urea extraction, actin, bloodstains, whites, 187
Blended fabrics
differential shedding, interpretation of fibre transfer, 155
Blood alcohol concentration
motorcycle, accident, fatality, alcohol, 165
Bloodstains
group-specific component, subtyping, isoelectric focusing, ultrathin-layer polyacrylamide gel isoelectric focusing, urea extraction, actin, whites, blacks, 187

C6 polymorphism
Japanese population, phenotyping in bloodstains, electroimmunoblotting, 61
Carbon monoxide poisoning
toxicology, cytochrome oxidase, fourth derivative spectrophotometry, 75
Carbon monoxide
postmortem blood, spectrophotometric, sulphaemoglobin, 1
Cardiomyopathy
alcoholism, alcohol-related mortality, causes of death, death certificates, liver cirrhosis, pancreatitis, alcohol intoxi-

cation, autopsies, forensic medicine, male alcoholics, 231
Causes of death
alcoholism, alcohol-related mortality, death certificates, liver cirrhosis, cardiomyopathy, pancreatitis, alcohol intoxication, autopsies, forensic medicine, male alcoholics, 231
Cellulose acetate
striated marks, photometric, Silcoset, computer, comparison, toolmark, 197
Cephradine
biological materials, Sep-Pak C_{18} cartridge, high performance liquid chromatography, thin-layer chromatography, mass spectrometry, 267
Classification
elemental analysis, glass types, 23
Cocaine
enantiomers, total synthesis, 275
Cocaine
tissue disposition, fatal poisoning, 83
Column chromatography
thiopental anesthesia, gas chromatography, injection rate, distribution, 169
Comparison
striated marks, photometric, cellulose acetate, Silcoset, computer, toolmark, 197
Computer
striated marks, photometric, cellulose acetate, Silcoset, comparison, toolmark, 197
Criminalistics
motor vehicle accidents, plastics, polyvinylchloride, trace evidence, 253
Cytochrome oxidase
toxicology, carbon monoxide poisoning, fourth derivative spectrophotometry, 75

Death certificates
alcoholism, alcohol-related mortality, causes of death, liver cirrhosis, cardiomyopathy, pancreatitis, alcohol intoxication, autopsies, forensic medicine, male alcoholics, 231
Desipramine
tricyclic antidepressant poisoning, amitriptyline, nortriptyline, tissue distribution, analytical toxicology, high pressure liquid chromatography, 93
Diazepam
THC, amphetamine, driving, 243
Differential shedding
blended fabrics, interpretation of fibre transfer, 155
Distribution
thiopental anesthesia, gas chromatography, column chromatography, injection rate, 169
Driving
diazepam, THC, amphetamine, 243
Dry sieving technique
soil analysis, torque and weight effects, 129

Electroimmunoblotting
C6 polymorphism, Japanese population, phenotyping in blood stains, 61
Elemental analysis
glass types, classification, 23
ELISA
plasma, thyroglobulin, immunoassay, mechanical asphyxia, 259
Enantiomers
cocaine, total synthesis, 275
Esterase D
agarose gel electrophoresis, glutamate, pyruvic transaminase, 69

Fatality
motorcycle, accident, alcohol, blood alcohol concentration, 165
Fatal poisoning
cocaine, tissue disposition, 83
Fibrin platelets
hemostasis, vital reaction, structure forming processes, 7
Flow rate
wet sieving, volume of suspension collected, 139
Forensic medicine
alcoholism, alcohol-related mortality, causes of death, death certificates, liver cirrhosis, cardiomyopathy, pancreatitis, alcohol intoxication, autopsies, male alcoholics, 231
Fourth derivative spectrophotometry
toxicology, carbon monoxide poisoning, cytochrome oxidase, 75
α-L-Fucosidase polymorphism
personal identification, organ tissue, teeth, hairs, 53

Gas chromatography
thiopental anesthesia, column chromatography, injection rate, distribution, 169
Genetic markers
salivary proteins, isoelectric focusing, paternity testing, 47
Glass types
elemental analysis, classification, 23
Glutamate-pyruvic transaminase
agarose gel electrophoresis, esterase D, 59
Group-specific component
subtyping, isoelectric focusing, ultrathin-layer polyacrylamide gel isoelectric focusing, urea extraction, actin, bloodstains, whites, blacks, 187

Hairs
α-L-fucosidase polymorphism, personal identification, organ tissue, teeth, 53
Hemostasis
fibrin platelets, vital reaction, structure forming processes, 7
High performance liquid chromatography
cephradine, biological materials, Sep-Pak C_{18} cartridge, thin-layer chromatography, mass spectrometry, 267
High pressure liquid chromatography
tricyclic antidepressant poisonings, amitriptyline, nortriptyline, desipramine, tissue distribution, analytical toxicology, 93
Highly stable
human semen, specific test, 19OH $F_1\alpha/F_2\alpha$ prostaglandins, radioimmunoassay, 103
Human semen
specific test, 19OH $F_1\alpha/F_2\alpha$ prostaglandins, highly stable, radioimmunoassay, 103

Immunoassay
plasma, thyroglobulin, mechanical asphyxia, ELISA, 259
Injection rate
thiopental anesthesia, gas chromatography, column chromatography, distribution, 169
Interpretation of fibre transfer
blended fabrics, differential shedding, 155
Intra- and inter-batch variation
propellants, viscosity, temperature and storage effect, 89
Ion-pair chromatography
toxicology, paraquat in tissue, sulfuric acid deproteinization, spectrophotometry, 177
Isoelectric focusing
genetic markers, salivary proteins, paternity testing, 47
Isoelectric focusing
group-specific component, subtyping, ultrathin-layer polyacrylamide gel isoelectric focusing, urea extraction, actin, bloodstains, whites, blacks, 187

Japanese population
C6 polymorphism, phenotyping in bloodstains, electroimmunoblotting, 61

Laser diffraction
soils, particle size analysis, similarity probabilities, 117
Latent fingerprint development
bacteriological techniques, 209
Liver cirrhosis
alcoholism, alcohol-related mortality, causes of death, death certificates, cardiomyopathy, pancreatitis, alcohol intoxication, autopsies, forensic medicine, male alcoholics, 231

Male alcoholics
alcoholism, alcohol-related mortality, causes of death, death certificates, liver cirrhosis, cardiomyopathy, pancreatitis, alcohol intoxication, autopsies, forensic medicine, 231
Mass spectrometry
cephradine, biological materials, Sep-Pak C_{18} cartridge, higher performance liquid chromatography, thin-layer chromatography, 267
Mechanical asphyxia
plasma, thyroglobulin, immunoassay, ELISA, 259
Motorcycle
accident, fatality, alcohol, blood alcohol concentration, 165
Motor vehicle accidents
criminalistics, plastics, polyvinylchloride, trace evidence, 253

Nortriptyline
tricyclic antidepressant poisonings, amitriptyline, desipramine, tissue distribution, analytical toxicology, high pressure liquid chromatography, 93

Organ tissue
α-L-fucosidase polymorphism, personal identification, teeth, hairs, 53

Pancreatitis
alcoholism, alcohol-related mortality, causes of death, death certificates, liver cirrhosis, cardiomyopathy, alcohol intoxication, autopsies, forensic medicine, male alcholics, 231
Paraquat in tissue
toxicology, sulfuric acid deproteinization, ion-pair chromatography, spectrophotometry, 177
Particle size analysis
soils, laser diffraction, similarity probabilities, 117
Paternity testing
genetic markers, salivary proteins, isoelectric focusing, 47
Personal identification
α-L-fucosidase polymorphism, organ tissue, teeth, hairs, 53
Phenotyping in bloodstains
C6 polymorphism, Japanese population, electroimmunoblotting, 61
Photometric
striated marks, cellulose acetate, Silcoset, computer, comparison, toolmark, 197
Plasma
thyroglobulin, immunoassay, mechanical asphyxia, ELISA, 259
Plastics
criminalistics, motor vehicle accidents, polyvinylchloride, trace evidence, 253
Polyvinylchloride
criminalistics, motor vehicle accidents, plastics, trace evidence, 253
Postmortem blood
carbon monoxide, spectrophotometric, sulphaemoglobin, 1
Propellants
viscosity, intra- and inter-batch variation, temperature and storage effect, 89
Prostaglandins (19OH $F_1\alpha/F_2\alpha$)
human semen, specific test, highly stable, radioimmunoassay, 103

Radioimmunoassay
human semen, specific test, 19OH $F_1\alpha/F_2\alpha$ prostaglandins, highly stable, 103

Salivary proteins
genetic markers, isoelectric focusing, paternity testing, 47
Sep-Pak C_{18} cartridge
cephradine, biological materials, high performance liquid chromatography, thin-layer chromatography, mass spectrometry, 267
Silcoset
striated marks, photometric, cellulose acetate, computer, comparison, toolmark, 197
Similarity probabilities
soils, particle size analysis, laser diffraction, 117
Soil analysis
dry sieving technique, torque and weight effects, 129
Soils
particle size analysis, laser diffraction, similarity probabilities, 117
Specific test
human semen, 19OH $F_1\alpha/F_2\alpha$ prostaglandins, highly stable, radioimmunoassay, 103
Spectrophotometry
toxicology, paraquat in tissue, sulfuric acid deproteinization, ion-pair chromatography, 177
Spectrophotometric
carbon monoxide, postmortem blood, sulphaemoglobin, 1
Striated marks
photometric, cellulose acetate, silcoset, computer, comparison, toolmark, 197
Structure forming processes
fibrin platelets, hemostasis, vital reaction, 7
Subtyping
group-specific component, isoelectric focusing, ultrathin-layer polyacrylamide gel isoelectric focusing, urea extraction, actin, bloodstains, whites, blacks, 187

Sulfuric acid deproteinization
toxicology, paraquat in tissue, ion-pair chromatography, spectrophotometry, 177
Sulphaemoglobin
carbon monoxide, postmortem blood, spectrophotometric, 1

Teeth
α-L-fucosidase polymorphism, personal identification, organ tissue, hairs, 53
Temperature and storage effect
propellants, viscosity, intra- and inter-batch variation, 89
THC
amphetamine, diazepam, driving, 243
Thin-layer chromatography
cephradine, biological materials, Sep-Pak C_{18} cartridge, high performance liquid chromatography, mass spectrometry, 267
Thiopental anesthesia
gas chromatography, column chromatography, injection rate, distribution, 169
Thyroglobulin
plasma, immunoassay, mechanical asphyxia, ELISA, 259
Tissue disposition
cocaine, fatal poisoning, 83
Tissue distribution
tricyclic antidepressant poisonings amitriptyline, nortriptyline, desipramine, analytical toxicology, high pressure liquid chromatography, 93
Toolmark
striated marks, photometric, cellulose acetate, Silcoset, computer, comparison, 197
Torque and weight effects
soil analysis, dry sieving techniques, 129
Total synthesis
cocaine, enantiomers, 275
Toxicology
carbon monoxide poisoning, cytochrome oxidase, fourth derivative spectrophotometry, 75
Toxicology
paraquat in tissue, sulfuric acid deproteinization, ion-pair chromatography, spectrophotometry, 177
Trace evidence
criminalistics, motor vehicle accidents, plastics, polyvinylchloride, 253
Tricyclic antidepressant poisonings
amitriptyline, nortriptyline, desipramine, tissue distribution, analytical toxicology, high pressure liquid chromatography, 93

Ultrathin-layer polyacrylamide gel isoelectric focusing
group-specific component, subtyping, isoelectric focusing, urea extraction, actin, bloodstains, whites, blacks, 187
Urea extraction
group-specific component, subtyping, isoelectric focusing, ultrathin-layer polyacrylamide gel isoelectric focusing, actin, bloodstains, whites, blacks, 187

Viscosity
propellants, intra- and inter-batch variation, temperature and storage effect, 89
Vital reaction
fibrin platelets, hemostasis, structure forming processes, 7
Volume of suspension collected
wet sieving, flow rate, 139

Wet sieving
flow rate, volume of suspension collected, 139
Whites
group-specific component, subtyping, isoelectric focusing, ultrathin-layer polyacrylamide gel isoelectric focusing, urea extraction, actin, bloodstains, blacks, 187

VOLUME CONTENTS

Volume 33 (1987)

ORIGINAL PAPERS

The determination of carboxyhaemoglobin in the presence of sulphaemoglobin . . . 1
by V.S. Rai and P.S.B. Minty (London, U.K.)

Strukturierende prinzipien hämostatischer prozesse 7
by E. Böhm (Düsseldorf, F.R.G.)

TECHNIQUES AND METHODS

Glass types identified by chemical analysis 23
by D.A. Hickman (London, U.K.)

A simplified procedure for simultaneous detection of salivary proteins and its application in paternity testing. 47
by J.L.B. Caeiro, F. Boán and A. Carracedo (Galicia, Spain)

α-L-Fucosidase phenotyping in human tissues, dental pulps and hair roots 53
by A. Kido, N. Komatsu, Y. Ose and M. Oya, (Yamanashi-ken, Japan)

C6 phenotyping in sera and bloodstains by isoelectric focusing followed by electro-immunoblotting 61
by M. Oya, A. Kido, Y. Ose and N. Komatsu (Yamanashi-ken, Japan)

Agarose gel electrophoresis of human erythrocyte glutamic-pyruvic transaminase (GPT EC 2.6.1.2) 69
by W. Bär and V. Biedermann (Zürich, Switzerland)

ORIGINAL PAPERS

Derivative spectrophotometric studies on cytotoxic effects of carbon monoxide . . . 75
Y. Fukui, A. Akane, S. Takahashi, K. Matsubara and C. Maseda (Izumo, Japan)

Tissue disposition of cocaine in man: a report of five fatal poisonings 83
A. Poklis, D. Maginn and J.L. Barr (St. Louis and Clayton, MO)

Identification of propellants of small arms ammunition 89
N.K. Nag and D. Sengupta (Calcutta, India)

Two tricyclic antidepressant poisonings: levels of amitriptyline, nortriptyline and desipramine in post-mortem biological samples 93
A.K. Chaturvedi, J.T. Hidding, N.G.S. Rao, J.C. Smith, II and S.J. Bredehoeft (Fargo, Minot and Grand Forks, ND)

Evaluation of the 190H analogues of prostaglandins E_1, E_2, $F_1\alpha$ and $F_2\alpha$ as specific markers for the identification of human semen in body fluid mixtures 103
J.G. Sutton, R.W. Kelly and B.A. Morris (Reading, Edinburgh and Guildford, U.K.)

TECHNIQUES AND METHODS

Particle size distribution analysis of soils using laser diffraction 117
S. Wanogho, G. Gettinby and B. Caddy (Glasgow, U.K.)

Some factors affecting soil sieve analysis in forensic science. 1. Dry sieving. 129
S. Wanogho, G. Gettinby, B. Caddy and J. Robertson (Glasgow, U.K.)

Some factors affecting soil sieve analysis in forensic science. 2. Wet sieving 139
S. Wanogho, G. Gettinby, B. Caddy and J. Robertson (Glasgow, U.K.)

Letter to the Editor 149

Book Reviews 151

Announcement 153

ORIGINAL PAPERS

Differential shedding from blended fabrics 155
M.T. Salter, R. Cook and A.R. Jackson (London, U.K.)

Fatal motorcycle accidents and alcohol 165
C.F. Larsen and M. Hardt-Madsen (Odense, Denmark)

TECHNIQUES AND METHODS

Toxicological study on intravenous thiopental anesthesia — interrelation between rate of injection and distribution of thiopental 169
M. Yashiki, T. Kojima and I. Okamoto (Hiroshima, Japan)

Determination of paraquat in tissue using ion-pair chromatography in conjunction with spectrophotometry 177
T.-L. Kuo (Taiwan, Republic of China)

A method for subtyping group-specific component in bloodstains 187
B. Budowle (Quantico, VA)

A photometric method for the quantitative mapping of parallel striated marks 197
T. Catterick and M.C. Taylor (Christchurch, New Zealand)

A bacteriological technique for the development of latent fingerprints 209
D.R. Harper, C.M. Clare, C.D. Heaps, J. Brennan and J. Hussain (Reading, U.K.)

INFORM 215

ANNOUNCEMENT 227

CORRIGENDA 229

ORIGINAL PAPERS

Validation of diagnoses on death certificates for male alcoholics in Stockholm 231
G. Ågren and S.W. Jakobsson (Sundbyberg, Sweden)

A retrospective study of drugged driving in Norway .....
A. Bjørneboe, G-E. Aa. Bjørneboe, H. Gjerde, A. Bugge, C.A. Drevon and J. Mørland (Oslo, Norway)

CASE REPORT

Marks involving polyvinylchloride materials in motor vehicle collisions 253
R. Kuppuswamy and P.K. Ponnuswamy (Tamilnadu, India)

TECHNIQUES AND METHODS

Enzyme-linked immunosorbent assay for determination of plasma thryoglobulin and its application to post-mortem diagnosis of mechanical asphyxia 259
K. Tamaki, K. Sato and Y. Katsumata (Nagoya, Japan)

Qualitative and quantitative analysis of cephradine in biological materials by high performance liquid chromatography 267
S. Suzuki and T. Inoue (Tokyo, Japan)

A practical total synthesis of cocaine's enantiomers 275
J.F. Casale (Raleigh, NC)
